R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com> (Woo 2007).

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk Tyasy (2007) dijo like this:

First Header	Second Header
Content Cell	Content Cell
Content Cell	Content Cell

```
head(cars)
```

```
##    speed dist
## 1      4     2
## 2      4    10
## 3      7     4
## 4      7    22
## 5      8    16
## 6      9    10
```

```
library(knitr)
kable( x=iris[1:10,] , caption = "Datos"
, align = c('l', 'c')
, digits = 1
, format.args = list( decimal.mark = "," )
)
```

Table 2: Datos

Sepal.Length	Sepal.Width	Petal.Length	Petal.Width	Species
5,1	3,5	1,4	0,2	setosa
4,9	3,0	1,4	0,2	setosa
4,7	3,2	1,3	0,2	setosa
4,6	3,1	1,5	0,2	setosa
5,0	3,6	1,4	0,2	setosa
5,4	3,9	1,7	0,4	setosa
4,6	3,4	1,4	0,3	setosa
5,0	3,4	1,5	0,2	setosa
4,4	2,9	1,4	0,2	setosa
4,9	3,1	1,5	0,1	setosa

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
